

Veratti® GT Readers

Certified Model
ANSI Z87.1-2003
High Impact
CSA Z94.3-2007
ANSI Z80.1-1999

veratti® GT Readers eliminate the need to own safety and prescription bifocal glasses. Our built in magnification lenses allow you to see objects up close without interfering in your long distance vision. We have specially designed our GT Readers to ensure that the positioning of the reader lens allows you to read comfortably and easily see detailed objects without causing eyestrain.

They are available in a range of diopters from +1.0 to +3.0. A weightless, low profile design and frameless, wrap-around comfort, combined with the cost savings of owning only one pair of safety eyewear, make these the perfect option for detailed work in hazardous situations.
