- Available with ENFOG® and our Premium AFR® coating provides superior fog resistance
- Full TPR frame and integral nose piece for ultimate comfort and wearability.
- 5 point adjustable temple ratchet for a personalized fit
- Dielectric safety spectacle
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020 (X) and CSA Z94.3:20

### Veratti® Toretto™

- Universal fit nose bridge.
- 9.5 Base Curve Lens
- Ratchet angle-adjustable temples provide users with a personalized fit.
- Soft temple tip provides superior comfort.
- Economical price point
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020 (X) and CSA Z94.3:20

### Veratti® Primo™

- Provides protection against dust and airborne particles
- Elastic headband secures spectacle firmly and comfortably
- Ventilated, fire resistant PEVA foam insulation
- Premium AFR® coating provides superior fog resistance
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020 (X), CSA Z94.3:20

### Veratti® Lites 2.0™

- Adjustable temples
- Adjustable nose piece
- Brow guard protection
- Extremely light, weighs only 16 grams
- Premium AFR® coating provides superior fog resistance
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020 (X) and CSA Z94.3:20

### Veratti® Salvo™

- Ultra lightweight modern frame feels weightless, even on the longest of days
- Adjustable, soft nose pads provide maximum comfort and fit
- Ratcheting temples support fit flexibility.
- Available in Premium AFR®, Scratchcoat® and ENFOG® coated lenses
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020

### Veratti® Primo™ 2021

- Foam seal provides protection against airborne dust and particles
- Fire resistant elastic head band secures spectacle firmly
- Premium AFR® coating provides superior fog resistance
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020 (X), CSA Z94.3:20

### Veratti® Primo™ Plus

- Protection from dust and airborne particles
- Soft TPR inner frame provides extremem comfort and a secure fit
- Premium AFR® coating provides superior fog resistance
- 3<sup>rd</sup> Party Certified to ANSI Z87.1:2020 (X), CSA Z94.3:20

## Tempered Water Systems

Encon® Tempered Water Systems were created with the industrial worker in mind. The systems provide water at temperature and flow levels that meet today's requirements. Our tempered water systems generate water at a usable temperature for a total of 15 minutes and at levels sufficient for irrigation of the affected areas for the entire treatment period.

## Freeze-Protected Showers

Encon® Freeze-Protected shower heads resist freezing by maintaining an internal water temperature above 50° F. Internal water temperatures are maintained with a self-limiting thermostatically controlled heating cable on Thermo-Flow® showerheads and a radiant heater or heating cable on Thermo-Flow Plus® products.

## Combination Eyewash/Facewash Showers

Encon® combination shower and eyewash emergency fixtures provide the user with a complete full body rinsing and orbital area coverage in a single station. Key features include self-regulating shower heads and eyewash spray heads with full dispersion flow patterns. Encon's unique design ensures that the liquid flow is non-damaging, covering the body and facial regions using different hydraulic pressures from the water supply source.

## Self-Contained and Portable

For areas where potable water is not available, Encon® self-contained and portable stations with 15-minute supply meet ANSI Z358.1 for eyewash requirements. Encon® offers several options including pressurized, gravity, and sealed water cartridge eyewashes.

## Storage Solutions

- Chemical resistant ABS thermoformed plastic construction

- Corrosion resistant external components
- Low friction, high strength hinges
